

UNIVERSITY OF Miami

Ethics Society

Ethics Debate Program

2007 Intercollegiate Ethics Bowl Champions

The Society's Ethics Debate Program provides members with an opportunity to discuss today's most pertinent moral issues in a competitive setting. In addition to training students for the University of Miami Ethics Debate at the School of Business and the Arsht Ethics Debate at Sportsfest, we also field a team for the Southeast Regional Ethics Bowl and the National Intercollegiate Ethics Bowl (IEB).

Our young ethics bowl team achieved something extraordinary earlier this year by winning the IEB National Championship in Cincinnati, Ohio. For us, this is only the beginning. We hope to build on last year's triumph by continuing to work with our sponsor UM Ethics Programs to create Ethics Debate's most comprehensive training program yet. Ethics debating for the Ethics Society will strengthen your reasoning skills and give your moral development a big boost.

If you are looking for a fun, exciting activity that will enrich your educational experience and open doors for you both personally and professionally, join the Ethics Debate Program. For more information, contact Ethics Debate Chair Ryan Kairalla at UMethicssociety@gmail.com.
